# Talk about it!

## Make sure that your wishes are honored.

It is very important to discuss and share your decision with your family and loved ones. Upon your death, your next of kin will be asked if you consented to donating an organ or tissue. This person and the others with whom you have discussed your decision will be able to speak on your behalf and ensure that your wishes are honored.

## Make your consent official by having it recorded in the *Registre des consentements au don d'organes et de tissus*.
